

The Dishwasher!!!

Who Created it

Josephine Cochrane was the first person to create the dishwasher. She created it in 1850 in Illinois. She designed it in the shed behind her house.

Problem Solver

The dishwasher saves lots of things. Somethings the dishwasher saves is water and energy. It is known as the essential time saver. It is called the essential time saver because you don't have to wash the dishes and instead you can do other chores.

The process

They placed multiple jets of water and racks inside the dishwasher.

Importance

This invention is so important because it helps with your dishes you spend less time on them so you can do other important stuff. If you are tired and have dirty dishes because you just had guests and you DON'T feel like doing the dishes just put them inside of the DISHWASHER!

ADVANTAGES AND DISADVANTAGES

Advantages

- more time with your family less time in the kitchen
- saves time uses less water
- your hands don't get dried by how much water you use

Disadvantages

- takes up space
- not always a good brand that you buy
- not always affordable

Hand wash or dishwasher

Hand Wash

- if your picky you get to wash your dishes your way
- use your own soap
- affordable, sometimes dishwashers have big costs

Dishwasher

- If you don't feel like doing the dishes put them in there
- Some dishwashers come with like a one year warranty for soap or you can use your own
