

Super Glue

By:Emily Martirosyan

Now you might know super glue being the most strongest glue in the entire worldwide, people use super glue all over the world they use it to fix many broken items. Dr. Harry Coover |AKA The inventor of super glue|, Coover was part of a wartime research team who developed clear plastic for use in precision gun sights they didn't find super glue important in their research.

Super gule helps you repair items that you have damaged like your new glass vase or your super hero toy super glue can be used in may different ways.

Super glue is made of casein and is u mix it up with viniger you can make super glue
