About Art

Art was made around 70,000 years ago, during the Upper Paleolithic. The first ever painting was made by an African she or he.

Art is something that you can do when you're bored, it's also a talent someone can have. You can do it with friends or by yourself.

What You Need To Make Art

If you want to do Art/Draw, you will be needing a pencil, an eraser, something to color with like markers crayons etc, and paper.

Now, you have to think of something you can draw. It can be a person or an object, it can be your family member, or just something that you like/enjoy.

Crafting

Crafting is also Art because most of the time it includes paper, also you can color it too, just like Art.

How To Make Art

Start by sketching your drawing, after draw detail parts. And then you can color your drawing and add the finishing touches! (if you want).

After you finish doing your sketch, you can go over it with a black marker to make it stand out more.
