

Research one area that has been affected by a water shortage, and write an informative essay describing how people are responding to this shortage.

Droughts also affected the Northeast US, Corn Belt and midwest States during 1980 and 1983. The 1983 Midwestern States drought was associated with very dry conditions severe heat and substandard crop growth which affected prices and caused hardship for farmers. Multiple disaster declarations went out in India and neighboring states because of the 1983 drought. Readings of 100
